

## Health Care Reform -- Eligibility

## Health Care Reform -- Individual Access Model

### May be Feasibility Study Questions

- Questions**

  - > Confirm, NV will not operate a Basic Health Plan for <200% of poverty
  - > Who will be responsibility for Insurance Exchange
  - > For uninsured, who will monitor requirements to maintain Minimum Essential Coverage
  - > Will Individuals' Exchange be separate to or integrated with Small Business Health Options Program (SHOP Exchange)
  - > Will Exchange Interface with or be the Eligibility Engine --Eligibility Engine could sit between Exchange and NOMADS if Exchange is regional or Federal
  - > Should we consider presumptive eligibility and/or iterative process if NOMADS is the eligibility engine
  - > What are the intended access points for the public -- Insurance Exchange or both exchange and through public assistance
  - > Should Medicaid Eligibility Engine operate outside of NOMADS with only an interface for approved applications
  - > How will the subsidized Co-Pay for <400% of Poverty be paid --
  - > Practical application of an Express Lane Eligibility Option for SCHIP and/or Medicaid integrated with other public assistance options
  - > For the feasibility study, what will be the Federal and State APD, TIR and RFP requirements
  - > What will be the relationship between MAGI (Modified Adjusted Gross Income) and FPL as family circumstances change
  - > Need full understanding of NOMADS end of life options considering programming language, technical support, processing constraints, and sensitivity to modifications
